

# Lean Sigma Business Green Belt

## January 2019 programme:

**Block 1:** Jan 14 to 16 2019

**Block 2:** Feb 13 to 14 2019

**Block 3:** Mar 11 to 13 2019

## March 2019 programme:

**Block 1:** Mar 13 to 15 2019

**Block 2:** Apr 9 to 10 2019

**Block 3:** May 15 to 17 2019

**Duration:** 8 days

**Fee:** £1800+VAT

### Includes:

- Comprehensive training manual
- Smallpeice accreditation
- Lunches and refreshments
- Lean Sigma toolkit
- Access to Lean Sigma website

### How to Book:

**Call** +44(0)1926 336423

**Email** [train@smallpeice.com](mailto:train@smallpeice.com)

**Visit** [www.smallpeice.com](http://www.smallpeice.com)

### Venue:

Smallpeice is in central UK (Leamington Spa – CV32 4ES), with easy access:

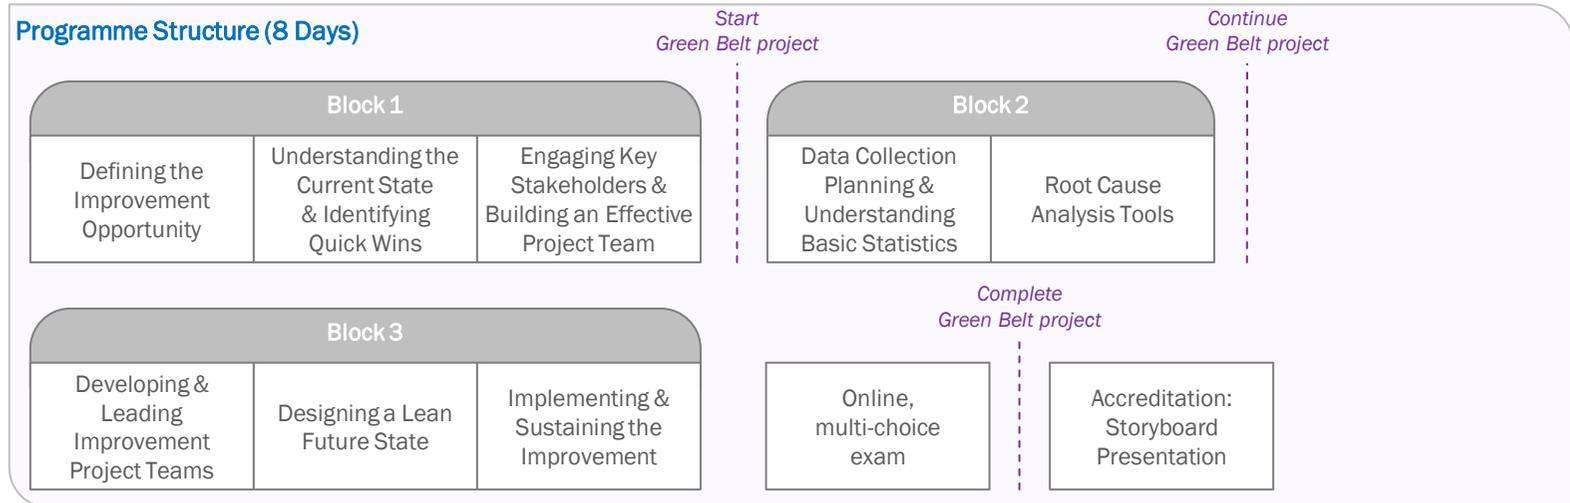

- by road: from the M40
- by rail: a 5-minute taxi journey from Leamington Spa station
- by air: just 25 minutes from Birmingham Airport

### Introduction

This programme integrates Lean and Six Sigma to provide a powerful improvement model that concentrates on both reducing cycle time and variability. The programme is based on a modular format which combines training inputs and practical simulation activities with an ongoing focus on project progress and reviews. The training objectives focus on enabling delegates to:

- lead projects that deliver tangible organisational benefits
- be familiar and confident with the key tools and techniques of Lean Sigma and understand how to use them within day-to-day activities
- be effective team members on any Lean Sigma project team

### Programme Structure (8 Days)

### Accreditation

The Smallpeice accreditation process requires completion of a project for formal assessment and passing a multi-choice exam. The exam can be taken online after training is completed (revision and practice questions are also provided).

### BQF Accreditation Option

Smallpeice courses are also licensed to BQF (British Quality Foundation) standards, enabling candidates to achieve this external accreditation. The accreditation steps are as described above, with an additional £250 fee to cover the BQF licensed accreditation route.

### Coaching & Support

Coaching and support is available in the form of structured face-to-face coaching, or remote support via webex / phone. We also offer a pre-accreditation check which provides a detailed review of projects prior to accreditation submission. Please call to discuss these options in more detail.

Detailed programme overleaf

## Detailed Programme of Content

BLOCK 1	Day 1	Day 2	Day 3
	<b>Defining the Improvement Opportunity</b>	<b>Understanding the Current State &amp; Identifying Quick Wins</b>	<b>Engaging Key Stakeholders &amp; Building an Effective Project Team</b>
<p><b>Programme Introduction &amp; Objectives</b></p> <ul style="list-style-type: none"> <li>Improvement project roles and responsibilities</li> </ul> <p><b>The Improvement Roadmap</b></p> <ul style="list-style-type: none"> <li>Introduction to the lean sigma approach &amp; the DMAIC project roadmap</li> <li>Project selection criteria</li> <li>Where are the biggest opportunities? Pareto analysis</li> <li>Application of the DMAIC toolkit in daily work</li> </ul> <p><b>The Define Phase</b></p> <ul style="list-style-type: none"> <li>Initiating a project charter &amp; writing problem statements</li> <li>Setting improvement objectives</li> <li>Scoping the project - the Y=f(x) cascade</li> <li>Mapping the high level process – SIPOC mapping</li> </ul> <p><b>Understanding the Voice of the Customer</b></p> <ul style="list-style-type: none"> <li>Techniques for collecting and analysing the voice of the customer</li> <li>Defining critical to quality characteristics</li> <li>Finalising the project charter</li> </ul>	<p><b>The Measure Phase</b></p> <ul style="list-style-type: none"> <li>Introduction to measure phase</li> <li>The difference between process bias and data bias projects – navigating the roadmap</li> </ul> <p><b>Understanding the Current State</b></p> <ul style="list-style-type: none"> <li>Defining value and waste: the 8 business process wastes</li> <li>Defining value streams</li> <li>Mapping the current state for business processes</li> <li>Facilitating mapping activities – hints and tips</li> </ul> <p><b>Detail Process Mapping Tools</b></p> <ul style="list-style-type: none"> <li>Detail process mapping tools overview</li> <li>Role of process mapping in DMAIC projects</li> <li>Process flow and sequence charting techniques</li> <li>Identifying and implementing quick wins</li> </ul> <p><b>Identifying Potential Process Issues</b></p> <ul style="list-style-type: none"> <li>Identifying weaknesses in the process</li> <li>Use of failure mode effects analysis (FMEA) to identify potential opportunities for defects</li> <li>Evaluating, reducing &amp; managing risk</li> </ul>	<p><b>Enablers for Project Success</b></p> <ul style="list-style-type: none"> <li>Pre-requisites for project success</li> <li>Analysing the enablers and barriers using force field analysis</li> <li>Building and communicating the business case</li> </ul> <p><b>Securing Project Sponsorship</b></p> <ul style="list-style-type: none"> <li>The role of the project sponsor</li> <li>Identifying and engaging senior support</li> <li>Setting a sponsorship contract</li> </ul> <p><b>Engaging Key Stakeholders</b></p> <ul style="list-style-type: none"> <li>Stakeholder analysis tools</li> <li>Understanding what motivates people &amp; dealing with resistance</li> <li>Influencing skills</li> </ul> <p><b>Building and Managing the Project Team</b></p> <ul style="list-style-type: none"> <li>Who should be involved in the project?</li> <li>The role of the Belt as facilitator</li> <li>Building an effective team &amp; assigning roles</li> <li>Developing the project plan</li> </ul>	

BLOCK 2	Day 4	Day 5
	<b>Data Collection Planning &amp; Understanding Basic Statistics</b>	<b>Root Cause Analysis Tools</b>
<p><b>Data Collection Planning</b></p> <ul style="list-style-type: none"> <li>Selecting what to measure &amp; key considerations</li> <li>Deciding how to collect the data</li> <li>Using effective operational definitions</li> <li>Checking the measurement system</li> </ul> <p><b>Introduction to Basic Statistics</b></p> <ul style="list-style-type: none"> <li>Measures of location; variation and proportion</li> <li>Introduction to probability</li> </ul> <p><b>Visualising the Data</b></p> <ul style="list-style-type: none"> <li>Introduction to Minitab software</li> <li>What shape is your data? Histograms</li> <li>Visualising descriptive statistics: graphical summary tool</li> </ul> <p><b>Assessing Process Control</b></p> <ul style="list-style-type: none"> <li>What is happening over time? Time series plots</li> <li>Introduction to process control &amp; control charts</li> </ul>	<p><b>Assessing Process Capability</b></p> <ul style="list-style-type: none"> <li>Introduction to calculating process capability for continuous and attribute data</li> <li>Selecting appropriate capability metrics &amp; indices</li> </ul> <p><b>The Analyse Phase</b></p> <ul style="list-style-type: none"> <li>Introduction to the analyse phase</li> <li>Process and data analysis roadmaps</li> </ul> <p><b>Verifying the Root Cause: Data Analysis Toolkit</b></p> <ul style="list-style-type: none"> <li>Taking a structured approach to data analysis</li> <li>Writing an analysis plan</li> <li>Link to cause and effect diagram</li> <li>5 Why approach to problem solving</li> <li>Stratifying the data – use of box plots</li> <li>Are there any relationships? Scatter diagrams</li> <li>Non-graphical methods for verifying the root cause</li> <li>Tips for summarising and presenting the analysis</li> </ul>	

BLOCK 3	Day 6	Day 7	Day 8
	<b>Developing &amp; Leading Improvement Project Teams</b>	<b>Designing a Lean Future State</b>	<b>Implementing &amp; Sustaining the Improvement</b>
<p><b>Leading &amp; Developing Improvement Teams</b></p> <ul style="list-style-type: none"> <li>Characteristics of effective teams &amp; stages of team development</li> <li>Developing performing teams through effective leadership</li> </ul> <p><b>Facilitating for Maximum Results</b></p> <ul style="list-style-type: none"> <li>Running effective workshops &amp; meetings</li> <li>Managing conflict / dealing with challenging people &amp; situations</li> <li>Adapting communications for groups</li> </ul> <p><b>Implementing &amp; Embedding Change</b></p> <ul style="list-style-type: none"> <li>Putting the plan into action</li> <li>Understanding people's response to changes in their ways of working</li> <li>Maintaining momentum</li> <li>Transferring ownership &amp; anchoring the change</li> </ul>	<p><b>Process Analysis: Developing a Future State</b></p> <ul style="list-style-type: none"> <li>Scoping improvement activity &amp; developing a future state map</li> <li>Creating flow and just-in-time processing</li> <li>Mistake proofing</li> </ul> <p><b>Developing Alternative Solutions</b></p> <ul style="list-style-type: none"> <li>Challenges of the improve phase</li> <li>Innovation tools</li> <li>Generating alternative solutions</li> </ul> <p><b>Developing the Improvement Plan</b></p> <ul style="list-style-type: none"> <li>Application of FMEA to the future state</li> <li>Optimising the solution</li> <li>Developing the improvement plan</li> </ul>	<p><b>Selecting &amp; Validating Solutions</b></p> <ul style="list-style-type: none"> <li>Solution selection, testing &amp; piloting</li> <li>Check list for solution validation Implementation planning</li> <li>Piloting &amp; solution introduction</li> </ul> <p><b>Solution Introduction &amp; Control</b></p> <ul style="list-style-type: none"> <li>Developing a control plan</li> <li>Prevention &amp; detection systems</li> <li>Choice of control method</li> <li>Out of control action planning</li> <li>Creating a visual workplace</li> <li>The role of standards and process confirmation</li> <li>Handover &amp; transferring benefits</li> <li>Planning for continuous improvement</li> </ul>
